

ANTIQUHE HEART PINE **CABIN PLANK**

Wide Plank Flooring Description

- **Species:** Southern Pine
- **Source:** Resawn from large beams and decking taken from demolition sites
- **Heartwood:** Varied
- **Grain Density:** 4 rings per inch and more
- **Knots:** Unlimited sound knots, broken knots and loose or fallen out knots.
- **Holes:** Many nail/spike holes with ferrous stains and larger bolt holes as well.
- **Cracks:** Unlimited cracks and splits as long as the planks are solid to walk on when installed.
- **Face Character:** Since the lumber is resawn from large timbers, the surface of planks will have no original weathering or saw marks. Because of previous use in some factories etc., you may find some oily stains scattered throughout the planks.
- **Color:** Characteristic light reddish color variations with some yellowish colors blended in as well. Planks may have sap stains, oily stains and other naturally occurring color variations.
- **Grain:** Mixed patterns
- **Milling:** Tongue & Groove , end-matched, relief cut on back
- **Size:** Thickness: ¾" Width: 3" - 12" Length: 1' - 8'+
- **M/C:** 8-10% or less
